

An Introduction To International Chemical Hazards Legislation

Import & Export (PIC)

In the European Union Regulation (EU) No 649/2012, concerning the export and import of hazardous chemicals implements the Rotterdam Convention and is the latest in a series of such regulations on international chemicals trade dating back to 1992. In 1999, the United Kingdom signed the Rotterdam Convention on the Prior Informed Consent Procedure (PIC), which allows signatories to monitor and control the international trade of certain dangerous chemicals.

The Regulation aims to protect human health, of both consumers and workers, and the environment against potentially harmful impacts from certain hazardous chemicals and pesticides.

CHCS Members can read a detailed overview of "[Prior Informed Consent \(PIC\)](#)" and may be interested in "[Tracking Substances Through Regulatory Processes](#)"

Globally Harmonised System (GHS)

The Globally Harmonised System of Classification and Labelling of Chemicals (GHS) has been the subject of more than a decade of work. Its aim is to provide a framework to bring together the various national and regional hazard communication systems which control the supply of hazardous chemicals in much the same way that the 'Orange Book' offers a global framework for the transport of dangerous goods.

The purpose of GHS is to provide a single, globally harmonized system to address classification of chemicals, labels, and safety data sheets. The first edition of GHS was published in July 2003 as the 'Purple Book', it is revised every December of even numbered years (and usually published in the following summer).

GHS includes a series of pictograms: see our web page: "[Globally Harmonized System Pictograms](#)".

Further details about the publication status, its 'adoption' throughout the world, and often access to electronic versions (when these are eventually made available), can be found on the UNECE website:

www.unece.org/trans/danger/publi/ghs/ghs_welcome_e.html

The EU Regulation (EC) No 1272/2008 (CLP) harmonises the EU supply provisions with the GHS. See our web page: "[Introduction To European Chemicals Legislation](#)".

CHCS Members can also "[Introduction To The CLP Regulation](#)".

CHCS Training

CHCS offers Modular Training Courses on the writing of Safety Data Sheets (SDSs), and related issues such as classification, labelling and other documentation.

For more information see [CHCS Training](#).

If you have any queries about our training, please [Contact CHCS](#).

Chemicals Legislation Support From CHCS

We provide a range of pages on this website that provide you with an introduction to different aspects of chemicals legislation / regulation:

[Legislation \(Introduction\)](#)

[Brexit](#)

[Transport: Modal Regulations](#)

[International Legislation](#)

[GHS Pictograms](#)

[Transport: Model Regulations](#)

[European Legislation](#)

[EU Law Making Process](#)

[Transport: UK Requirements](#)

[UK Legislation](#)

[EH40](#)

For CHCS members only:

[REACH Regulation](#)

[Prior Informed Consent \(PIC\)](#)

[Seveso III Directive](#)

[CLP Regulation](#)

[The Cosmetics Regulation](#)

[Tracking Substances](#)

[EH40](#)
