

## Module 19, EU CLP Labelling

**18 & 19 May 2022: 09:15 – 12:45 BST**  
**This Module will be delivered, live, online**

The supply label is the primary means by which handlers and users of products are made aware of the hazards to their health and the environment. Following on from the classification of substances and mixtures, it is imperative that products are correctly labelled.

This module covers the EU label elements including pictograms, signal words, hazard statements and precautionary statements. Delegates will be shown how to pull these elements together into a label which is compliant in content and format. The module will also cover rules for affixing of labels, languages, updating, and packaging requirements including Tactile Warning Devices and Child Resistant Fastenings.

### Who Should Attend?

This course, delivered live, online over two consecutive mornings, is mainly aimed at those responsible for ensuring that supply labelling is compliant and Safety Data Sheet writers.

It is recommended that delegates also attend [Module 16](#) to gain a complete understanding of CLP.

### Benefits Of Attending?

Attendance on this series of modules will ensure that your SDSs and labels meet the increasing expectations of both your customers and the regulators. To ensure the most effective training with optimum involvement in participative exercises, there will be a limit of 16 on the number of students.

IOSH members are entitled to include this module in their continuing professional development records.

### What You Will Learn

The module will include sessions covering the following topics:

- The regulatory framework
- The classification system
- Label elements such as:
  - Product identifiers
  - Supplier information
  - Pictograms
  - Signal words
  - Hazard statements
  - Precautionary statements
  - Mixture contents
  - Supplemental information such as UFI's

- Label layout
- Label dimensions
- Affixing of labels
- Derogations & exemptions
- Packaging
- Tactile Warning Devices and Child Resistant Fastenings
- Updating and record keeping
- Disclosure and confidentiality
- Future regulatory changes

### SAMPLE PROGRAMME

- The Regulatory Framework  
Exercise 1
- The Classification System  
Exercise 2
- Label content
- Label content and format
- Exercise 3
- Packaging
- Some final points
- Q & A Session

### Module Tutor

Louise Witter BSc (Hons), LL.B has been working in the field of general quality, health, safety and environment for over 20 years and specializes in SDS production. She has taught SDS producing staff within all of the major production chemical companies servicing the oil and gas industry as well as general chemical majors, small businesses and universities. She has also been approved to instruct in the safe carriage of dangerous goods by the Civil Aviation Authority, Department for Transport and Scottish Qualifications Authority.

### EU Brexit

The 'Brexit' outcome from the June 2016 referendum is unlikely to affect the importance of compliance with EU legislation on classification and safety data sheets. As is the case now, businesses supplying chemicals in other EU Member States or in the European Economic Area will continue to have to comply with European law. The future requirements on those supplying chemicals only in the UK may only become certain when the terms of the exit have been agreed, however UK legislation is expected to remain aligned to EU legislation, at least in the short term.

### Module Presentation

We will deliver this training using online training software, which we have used successfully for other CHCS training courses. There is no charge to delegates for using the software. The licence cost is borne by CHCS.

The sessions will run live and delegates can interact with the tutor and other delegates using their device microphone. The tutor will use a PowerPoint presentation, just as they would in face-to-face training. We will provide you with copies of the presentation and all other supporting documentation in advance of the training, by email. We will provide you with a document giving more details about using the software plus some tips for getting the best out of the day.

**Participants need to bring an electronic copy of the Regulation (EC) No 1272/2008 on Classification, Labelling and Packaging of Substances and Mixtures, including Annexes on a laptop or tablet for use during the exercises.**

The latest consolidated version of the CLP Regulation can be downloaded from:

<https://echa.europa.eu/regulations/clp/legislation>

### Comments From Delegates Attending Previous Courses

*"Fantastic! The trainer was really well prepared, took everything back to basics and built on it. Great notes and information packs."*

*"Good logical progression through the requirements with relevant exercises to support understanding."*

*"Training was detailed, interesting and contained all relevant information"*

*"Good pace, answered individual questions – tailored to everyone's needs"*

### Reserving A Place

Simply complete our online Registration Form at: [www.chcs.org.uk/event-4524136](http://www.chcs.org.uk/event-4524136). Courses are only available to CHCS Members. Non-members can join CHCS by completing our simple online Membership Registration form at: [Join Us](#).

Our online training courses are £275 (+VAT). We offer a **discounted price** of only £250 (+VAT) which expires 6 weeks before the date of the course.

### Your Attention Is Drawn To These Conditions

Delegates can be substituted at any time, subject to payment of membership fee if applicable. However, once booked, the full fee is payable. As this is a limited space training event refunds can only be made if CHCS is notified in advance, and is able to successfully re-offer the place to another delegate.

CHCS reserves the right to alter or cancel the programme due to circumstances beyond our control. If CHCS cancels, then refunds will be made.

We only accept Credit Card payment for bookings made within 5 weeks of the course date.
