

Module 80

UK REACH & GB CLP Practicalities: Linking UK and EU Processes

For dates and venues, please visit: [CHCS Training](#)

Objective

Although the UK and EU will maintain virtually parallel systems in terms of terminology and technical standards, there are issues with regard to responsibility in the supply chain, especially if supplying the UK and EU through hubs in the UK or EU.

The two half-day sessions cover both the issues that have arisen as a result of the UK exit from the EU and the new relations between EU and UK Regulations (and of course, not forgetting Northern Ireland).

A number of Regulations relating to chemical supply are impacted by the UK exit from the EU and although the principles and content of the Regulations remain the same in both regulatory frameworks, there are many organisers who are considered as importers and exporters and have respective responsibilities.

As well as REACH Registration and formatting of SDS and Labelling, other Regulations impacted include CLP, Biocides, Cosmetics, Plant Protection etc.

The first step for all those involved in production and supply of chemical products is to establish their position in the supply chain to determine their own responsibilities. In the early days, there will be confusion in the market as to the respective roles, but supply line mapping is crucial.

Once supply lines and responsibilities are understood, it will be necessary to look at the detail for REACH Registration (e.g. GB Grandfathering) and labelling (address of suppliers?) and so on. Ultimately, there may be a need for new UK Registrations to be considered.

The objective of these sessions is to ensure that the UK importer / supplier understands their position in the supply line and acts accordingly to comply with UK Regulations and to help their EU customers comply with EU Regulations when exporting.

SAMPLE PROGRAMME

Session 1 - Mapping Supply Lines And Understanding Obligations In The UK And EU

- **The UK Position In Europe – Introduction And Overview**
History and background
Impacted Regulations (REACH, CLP, Biocides, Cosmetics etc)
Supply lines and options
Responsibilities of those in the supply chain
Appointing EU Representatives
- **Initial UK Requirements For REACH & CLP**
Grandfathering of EU Registrations and UK Gateway for submission
Downstream User Import Notification (DUIN)
Supporting customers in Europe supplying onwards to EU/UK
UK /EU compliance for labelling and SDS
- **The Future?**
Potential for divergence
Similar regimes evolving globally (e.g. Turkey, Russia)
Future global standards?

Session 2 – Practicalities For Compliance *[see over]*

Session 2 – Practicalities For Compliance

- **UK Registration System**
New suppliers - Inquiries and PPORDs
Eventual full registration and agreeing on Lead Registrant and data sharing
- **Labelling and SDS**
Biocides
Cosmetics
Responsibilities and contact details
Supplying UK and EU (languages?)
Poison Centre Notifications
- **Working with EU ORs / Agents/ Distributors**
What are obligations of difference parties?
Who can do what?
How to optimise your relationship
Work that can be done yourself

Module Tutor

The training will be given by Mark Selby of Denehurst Chemical Safety Ltd. Mark had many years' experience in industry and major testing laboratories before setting up his own consulting business. www.denehurst.co.uk.

Module Presentation

We will deliver this training using online training software, which we have used successfully for other CHCS training courses. You can use the software, free-of-charge on Windows, Macs, smartphones and tablets.

The sessions will run live and delegates can interact with the tutor and other delegates using their device microphone. The tutor will use a PowerPoint presentation, just as they would in face-to-face training. We will provide you with copies of the presentation and all other supporting documentation in advance of the training, by email.

Reserving A Place

You can reserve a place at this course, online by visiting [Chemical Hazards Training](#), finding the next occurrence of the course and completing the on-line booking form. Courses are only available to CHCS Members. If you are not an existing member and would like to join, again, the process is simple and you can complete our online Membership Registration form at: [Join Us](#).

Our training courses are £275 (+VAT). However, we offer a **discounted price** of only £250 (+VAT) which expires 6 weeks before the date of the course. Please see the online event for more details.

Your Attention Is Drawn To These Conditions

Delegates can be substituted at any time, subject to payment of membership fee if applicable. However, once booked, the full fee is payable. As this is a limited space training event refunds can only be made if CHCS is notified in advance and is able to successfully re-offer the place to another delegate.

CHCS reserves the right to alter or cancel the programme due to circumstances beyond our control. If CHCS cancels, then refunds will be made.

Comments From Delegates Attending Previous Courses

"Very thorough. Clearly run by someone who knew what they were talking about and was well versed in the practicalities."

"Mixture of slides and practical demonstration - particularly the UK REACH Gateway site. Mark provided lots of additional information on top of the content of the slides and made it interesting."

"It was nice that it included some demo/walk-through of online tools like Comply With UK-REACH and IUCLID."
