

Position sought for experienced chemical professional

I have a solid background in the chemical industry, including some of the following:

- Compliance REACH-CLP authoring SDS & Labels
- Managing procurement & installation of SDS writing & Label design software
- Packing / Shipping of DG by sea and air
- Quality management and managing 3P contractors (UK, Asia, USA)
- China market: Practical experience buying, shipping, importing
- Early background training as Laboratory QC chemist

I am open minded to the content of the role and interested in working in any sectors that can utilise my skills and experience. The role can be full-time or other, ideally accessible from Folkestone, or mainly home based

Please feel free to contact me as below and see details of my previous roles on LinkedIn:
